EHA-ESH Hematology Tutorials present state-of-the-art science in a didactic format. They are intended to promote informal interaction between scientists and clinicians working in the field of hematology.

The program takes the participant through the diagnostic and clinical pathway. Plenary lectures alternate with interactive clinical case study and self-assessment sessions, which use a voting box system, conducive to lively discussions between lecturers and participants.

The faculty comprises leading hematologists highly experienced in the diagnosis and treatment of hematological diseases. This 31st Hematology Tutorial is Type I, which means that it presents newly developed clinical cases, lectures and multiple choice self-assessment tests.

EHA-CME ACCREDITATION

Tutorials are accredited by the EHA-CME system. Participants in the Diagnostic Work-up of Hematological Diseases are eligible to receive one Continuing Medical Education (CME) credit point for every hour of accredited activity from the EHA-CME system.

REGISTRATION

Registration fee – 350 Euros. For EHA members a reduced fee of 275 Euros.
